Kansas has been working with a collaboration of a total of 13 States working together under the lead of Pennsylvania for the development and testing of the core EHR incentive process which will provide an interface between each States' Medicaid Management Information System (MMIS) computer system and the CMS NLR (National Level Repository) for incentive process (registration, payments, portal, attestations, etc.). This enhancement to the MMIS is referred to as Medical Assistance Provider Incentive Repository (MAPIR). Attached is the I-APD which was submitted to CMS by Pennsylvania and approved. Kansas will utilize the core MAPIR and install it in Kansas to process Medicaid provider incentive payments. Bidders should consider that this piece of Kansas Medicaid HIT planning is underway when preparing proposals. The Pennsylvania I-APD which includes MAPIR information is enclosed (Attch 8).
